

Sani-Hands®

for Kids Antimicrobial Alcohol Gel Hand Wipes

For use
prior
to eating

It's Important To Eat With Clean Hands

Provide Sani-Hands® for Kids Antimicrobial Alcohol Gel Hand Wipes to your customers:

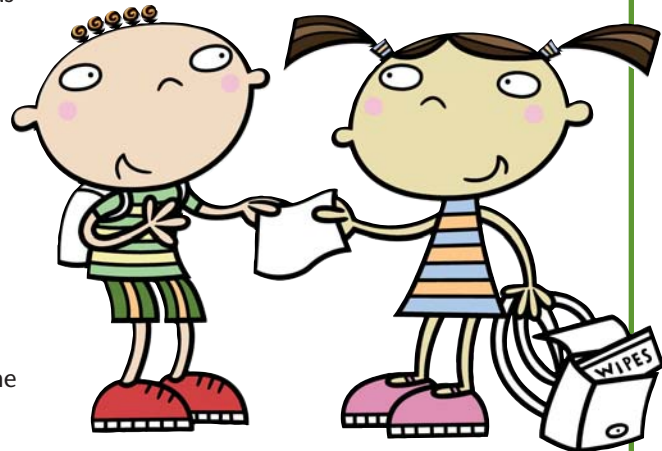

- With meal orders
- In to-go bags
- At hostess/greeting station

Sani-Hands® for Kids:

- Kills germs on hands that may cause illness.
- Gentle on hands.
- Convenient – ready to use.
- Portable – can be used anywhere.
- Wiping action removes soil from hands.

This is especially true for kids! Every parent knows that one of the main ways to prevent illness is to keep hands clean. Yet, how many of your patrons and their children really take the time to wash their hands before they eat? Everyone is on the go these days and unfortunately this important ritual is too often skipped. You can fill the gap by offering your customers Sani-Hands® for Kids Antimicrobial Alcohol Gel Hand Wipes with their meal for use before they eat.

Sani-Hands® for Kids is formulated for use to clean hands prior to handling food. Many products require hands to be rinsed before handling food. Nice-Pak's kid-friendly hand hygiene experts, Cora and Cory, will be teaching children about the importance of keeping hands clean in elementary schools throughout the United States.

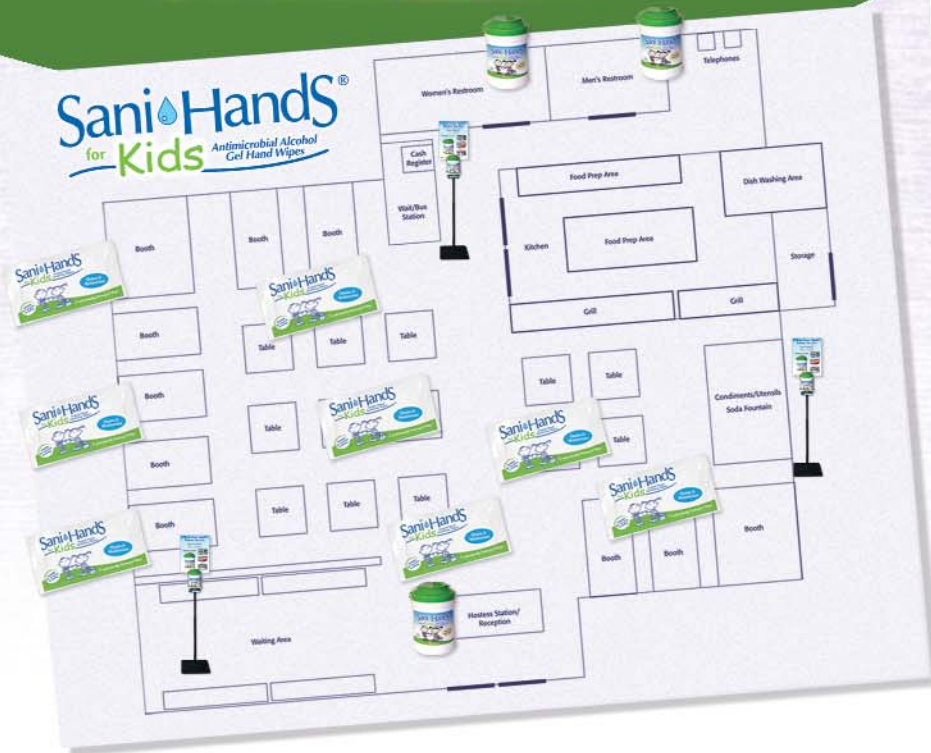

Assuring that your customers
enjoy their meals
with clean hands will
improve their
guest experience!
